

PEBBLE

INSPIRED BY NATURE

Inspired by the unceasingly beautiful patterns of stony beaches.

With inspiration taken from the shores of the Swedish coast, the pebble tile has the perfect calming effect for the restless spirit. Thanks to its minimalistic character and organic design, it can be easily integrated into any type of interior creating its own personal expression. The pebble tile is the perfect accompaniment to a dull board room or a noisy office; it is both dutiful and stately in appearance while still adding character and appeal.
